

# NEXT STEPS: PUERTO RICO

Lindy Levron / June 2019

## TRAINING

The first three weeks in Puerto Rico were spent in training. Training applied a holistic approach to understanding what it means to work in missions. Week one focused on the individual, who we are, we discussed our why as we covered spiritual disciplines and fundamentals. Week two took a look at the local work, we heard from local pastors and about the church in Puerto Rico. Week three focused on missions globally and what we are in the context of short term missionaries.

## APPRENTICESHIP

Week four our Next Steps group traveled to Ponce to begin the 5 weeks of apprenticeship. We assisted the local church in Lajas to evangelize in preparation for a community event. The week consisted of music practice, prayer walking, and inviting locals to attend. We had a family and some local children attend both nights of the event; at least one received the Holy Ghost.

## PRAYER REQUEST

There is a great need for laborers in the work here. There are many areas still to be reached.

The church in Aguadilla is the only church in a very large area; the pastor here has a burden for the area but is limited as he cares for his mother who is bedridden. Pray that the Lord would send laborers to assist his efforts and for his mother and family.

There is also a need for a pastor in the church in Caguas. Pray that the Lord would raise up local leaders in the churches here and that revival would spread throughout Puerto Rico.
