
ATHENS

Arrival

I have been so blessed to join the next steps mediterranean group 2024 and it has been amazing. On June 1st I landed in Athens, Greece. I was greeted by the host missionaries the Morenos and welcomed warmly. The people of Greece were so welcoming and made me feel so accepted.

TRAINING

Greece was really setting the foundation for the rest of our lives with the courses we were taking to help us become missionaries. For three weeks we completed 70 hours worth of training. We were so blessed to be taught by people such as Angie Clarke, the Shaulms, Bro. Adam Hunley and many more.

We learned all sorts of valuable lessons ranging from things like dealing with homesickness, to alter working, to spiritual warfare, and I could go on and on. The main lesson though, is that everything we do is all for His kingdom. Everything we do is to give glory to God.

ATHENS

Work and Departure

After we were finished with all of our training, we were so blessed to really get involved. The first thing we did was set up two different youth services that I was able to preach at. I can't even begin to express how the spirit fell in those services. The youth of Greece are so hungry for God and His word.

We were also able to work their VBS. It was 11 hours for three days in a row, and it was worth every second of it to see those children praying so hard and reaching for the Lord. 15 received the Holy Ghost and 2 were baptized!!! This was such an amazing experience because you get a backstage pass to the Greek culture just by hanging out with these kids. Also, by reaching these kids you're reaching into their homes and reaching their lost family members.

Lastly, we were able to hand out water bottles with the church card attached on the label to tons of people. This was amazing because so many people were receptive and so interested in attending church.

.This trip was so much of a blessing. I have learned so much that I can use in my future ministry and in many other areas of my life. To see the people, to see their hunger, to see their love for Christ has completely changed my outlook on life. I can't thank those who have supported me to get here. You have given to not me but to the people of Greece. The last thing I want to say....

IN GREECE AS IT IS IN HEAVEN!!
